

CYBER SECURITY ASIA 2021

Building Security in An Ultra-Connected World

5-6 July 2021 @ Sheraton Imperial Hotel Kuala Lumpur

Cybercrime has become increasingly prevalent and sophisticated & continue to rise with ever more data breaches and crippling ransomware attacks. A broader security strategy is needed as the attack surface grows, and we rely more on digital technologies in all areas of business and industry. Attend CSA2021 for up-to-date sessions of cybersecurity challenges and evolutions and how cyber resilience can help organizations prevent, detect, respond, and recover.
