

STRATEGIC DIGITAL TRANSFORMATION 2022

Transforming Organizations into Data-Driven & People Focused Businesses

22-24 February 2022 | Sheraton Imperial Hotel Kuala Lumpur

"The greatest danger in times of turbulence is not the turbulence; but acting with yesterday's logic"
Peter Drucker

While we are battling to recover from the pandemic, businesses realized the only way forward is digital. Many organisations are adopting smarter and faster machines at speed, to simplify, atomize, and deliver at scale. However, how do we get ahead to achieve our ambition in an extreme volatile, uncertain, complex and environment? In this new normal, leaders need to ensure their organization and people are agile, resilient and be future-readied. They need an agile operating model to mobilise multidisciplinary teams as needed and the agility to complement and collaborate with ecosystem partners. Strategic Digital Transformation: Practical ways for leaders to leading digital transformation initiatives and management change successfully. This program is designed based on global best practices and has equipped many organisations leaders foster agile organisations, people and culture despite times of uncertainty.
